Welcome to Your Lead Magnet Template Pack

Inside this pack you will find five professionally written, conversion-tested lead magnet templates designed specifically for business coaches. Each template is ready to customise with your brand identity and deploy immediately to attract high-value clients.

Every template contains complete, publish-ready content that positions you as a strategic authority, builds trust with business owners, and leads them toward engaging your services.

Replace [YOUR NAME], [YOUR BUSINESS], and all bracketed placeholders with your own details.

TEMPLATE 1: The Business Health Check -- 10-Point Assessment

This assessment helps business owners quickly identify weaknesses in their operation. It creates urgency and positions you as the solution.

--- BEGIN TEMPLATE ---

THE BUSINESS HEALTH CHECK

10-Point Assessment for Business Owners

By [YOUR NAME], Business Coach | [YOUR BUSINESS]

Instructions: Answer YES or NO to each question. Be honest -- this assessment is for you, not anyone else.

1. Revenue Predictability: Can you accurately forecast your revenue for the next 90 days within 10% accuracy? Do you have a documented sales pipeline with conversion rates at each stage? (YES/NO)
2. Owner Independence: Could your business operate profitably for 4 weeks without you being involved in day-to-day operations? Do you have documented systems and trained team members for every critical function? (YES/NO)
3. Profit Margins: Is your net profit margin above 15%? Do you know your exact profit margin for each product or service you offer, and have you eliminated or restructured your lowest-margin offerings? (YES/NO)
4. Lead Generation: Do you have at least 3 consistent, measurable lead generation channels producing qualified prospects every month without your personal involvement? (YES/NO)
5. Cash Flow Buffer: Do you have at least 3 months of operating expenses in cash reserves? Can you cover payroll, rent, and essential costs even if revenue dropped 50% for a quarter? (YES/NO)
6. Customer Retention: Do you know your customer lifetime value and retention rate? Is your retention rate above 80%? Do you have a systematic onboarding and relationship management process? (YES/NO)
7. Team Performance: Do all team members have documented KPIs reviewed at least monthly? Do you have a hiring process that consistently attracts A-players, and a performance management system that addresses underperformance within 30 days? (YES/NO)
8. Strategic Planning: Do you have a written 12-month business plan with quarterly milestones, and do you review it at least monthly? Does your entire team know the company's top 3 priorities this quarter? (YES/NO)
9. Competitive Advantage: Can you clearly articulate what makes your business different from competitors in one

sentence? Would your customers describe this same advantage if asked? (YES/NO)

- 10. Personal Sustainability:** Do you work fewer than 50 hours per week while the business grows? Are you energised by your business rather than exhausted by it? Do you take at least 4 weeks of genuine holiday per year? (YES/NO)

YOUR RESULTS:

8-10 YES: Your business is in strong shape. You are ready to scale aggressively or optimise for exit value. A coach can help you reach the next level.

5-7 YES: Solid foundation with critical gaps. These gaps are likely costing you 20-40% of potential revenue. Targeted coaching could close them within 6 months.

2-4 YES: Your business is running you, not the other way around. You are likely overworked, underleveraged, and leaving significant money on the table. This is fixable.

0-1 YES: You do not have a business -- you have a job you created for yourself. The good news: with the right structure, the transformation can be rapid.

Every NO is a growth lever. Fix the easiest ones first for quick wins, then tackle the structural ones with expert guidance.

[YOUR NAME] offers a complimentary 45-minute Business Strategy Session for owners scoring 7 or below. We will review your assessment, identify your top 3 priorities, and create a 90-day action plan.

TEMPLATE 2: 5 Mistakes Keeping Your Business Under GBP500K -- Mini-Guide

This positions you as someone who works with serious businesses and helps owners see the specific mistakes holding them at their current revenue ceiling.

--- BEGIN TEMPLATE ---

5 MISTAKES KEEPING YOUR BUSINESS STUCK UNDER GBP500K

By [YOUR NAME], Business Growth Coach

If your business has plateaued between GBP100K and GBP500K in annual revenue, you are not alone. This is the most common growth ceiling for small businesses, and it is almost always caused by the same five structural mistakes.

These are not motivation problems. They are systems problems. And they are entirely fixable.

MISTAKE 1: You Are the Bottleneck for Every Decision

When every question, problem, and decision flows through you, your business can only grow as fast as your personal bandwidth allows. This is the single biggest reason businesses stall between GBP200K-500K.

At GBP100K, being involved in everything is survivable. At GBP500K, it is mathematically impossible. You become the constraint.

The Fix: Document your decision-making criteria for the 10 most common recurring decisions. Create simple if-then frameworks your team can follow. Start with low-risk decisions and gradually expand the scope of delegation. Your goal: 80% of daily decisions made without you within 90 days.

MISTAKE 2: No Documented Systems or Processes

If your best employee left tomorrow, how much institutional knowledge walks out the door? If the answer is 'a lot,' your business is fragile.

Undocumented processes mean inconsistent quality, slow onboarding, and owner dependency. They also make your business essentially unsellable.

The Fix: Start with your revenue-generating processes. Document your sales process end-to-end, your client onboarding, and your service delivery. Use Loom videos for quick documentation. Aim to document one process per week -- in 3 months you will have transformed your operation.

MISTAKE 3: Pricing Based on Time Instead of Value

Hourly or daily rates cap your revenue at the number of hours you can sell. Worse, they incentivise clients to minimise your involvement rather than maximise the outcome.

Value-based pricing aligns your incentives with your client's results. It removes the time-for-money ceiling and often doubles your effective rate overnight.

The Fix: Calculate the financial impact of your work for clients. If your consulting helps a client save GBP50,000 per year, charging GBP5,000 is 10x ROI -- an easy yes. Repackage your services around outcomes rather than hours. Create 3 tiers (good, better, best) with clear deliverables and results.

MISTAKE 4: Relying on One Lead Generation Channel

If 80%+ of your leads come from one source (referrals, one platform, one partnership), your business is one algorithm change or relationship shift away from a revenue crisis.

The Fix: Build 3 reliable lead channels within 12 months. The ideal mix: (1) An owned channel you control (email list, content, SEO). (2) A paid channel you can scale (ads, sponsorships). (3) A partnership channel (referrals, affiliates, joint ventures). Allocate 15-20% of revenue to marketing and lead generation.

MISTAKE 5: No Financial Dashboard or KPIs

Most business owners under GBP500K check their bank balance and hope for the best. They know roughly how much came in and went out, but they cannot tell you their gross margin by service line, customer acquisition cost, or lifetime value.

You cannot optimise what you do not measure. And you cannot make strategic decisions with gut feeling alone.

The Fix: Track these 7 numbers weekly: revenue, gross profit margin, net profit margin, cash in bank, accounts receivable, new leads, and conversion rate. Review them every Monday morning. Within a month, you will make better decisions than 90% of business owners.

Ready to break through your revenue ceiling? [YOUR NAME] works with business owners to build the systems, team, and strategy needed to scale beyond GBP500K.

TEMPLATE 4: The Business Scaling Cheat Sheet -- Quick Reference Card

A reference card business owners keep on their desk. Keeps you top of mind.

--- BEGIN TEMPLATE ---

BUSINESS SCALING CHEAT SHEET

Key Metrics, Frameworks, and Rules of Thumb

By [YOUR NAME] | [YOUR WEBSITE]

REVENUE GROWTH FORMULA:

Revenue = Leads x Conversion Rate x Average Value x Purchase Frequency

Improving each by just 10% = 46% total revenue increase (1.1 x 1.1 x 1.1 x 1.1)

HEALTHY BUSINESS BENCHMARKS:

- Net profit margin: 15-25% (below 10% = structural problem)
- Customer acquisition cost: Below 1/3 of first-year customer value
- Monthly recurring revenue: 60%+ of total (for service businesses)
- Client retention rate: 80%+ annually
- Owner hours: Under 45/week while growing

PRICING STRATEGY:

- Never compete on price (race to the bottom)
- Premium pricing attracts better clients with fewer headaches
- Offer 3 tiers: entry (anchors value), standard (your target), premium (makes standard look reasonable)

- Raise prices 10% annually at minimum -- test 20%

HIRING RULES:

- Hire for attitude, train for skill
- First hire should free up your highest-value time
- A-players cost 20% more but produce 3x the output
- Slow to hire, fast to fire (compassionately but decisively)
- Document the role before posting the job

SALES FRAMEWORK (SPIN):

- Situation: understand their current state
- Problem: identify their specific pain
- Implication: quantify the cost of inaction
- Need-Payoff: show how your solution delivers ROI

TIME MANAGEMENT MATRIX (Eisenhower):

- Urgent + Important: Do immediately
- Important + Not Urgent: Schedule (this is where growth lives)
- Urgent + Not Important: Delegate
- Neither: Eliminate

KEY RATIOS TO TRACK WEEKLY:

- Cash runway (months of expenses in bank)
- Revenue per employee
- Lead-to-close ratio
- Average days to payment
- Client satisfaction (NPS) score

THE 80/20 RULE APPLIED:

- 80% of revenue comes from 20% of clients -- nurture them
- 80% of problems come from 20% of clients -- fire them
- 80% of results come from 20% of activities -- focus on those

Need help applying these frameworks to your business? [YOUR NAME] works with business owners who want structure, accountability, and strategic clarity.

- E4. I regularly analyse market trends and adapt my offering accordingly. ____
- E5. I have a clear vision for where the business will be in 3-5 years. ____

Section E Total: ____/25

GRAND TOTAL: ____/125

100-125: Scale-Ready. Your business has strong foundations. A coach can help you scale aggressively.

75-99: Growth Phase. Good base with clear optimisation opportunities. Strategic coaching could add 30-50% to your bottom line.

50-74: Building Phase. You have a viable business with structural gaps. Addressing these gaps will transform profitability and owner freedom.

25-49: Survival Phase. You are working hard but the business is not working smart. This is the phase where coaching delivers the most dramatic ROI.

How to Use These Templates

Deploy these templates strategically to build a consistent pipeline of business owner leads.

- 1. Customise and Brand:** Replace all placeholders with your details. Adjust revenue figures and examples to match your target client's business size. Add client logos and testimonials where relevant. Ensure all frameworks match your coaching methodology.
- 2. Choose Your Format:** The Business Health Check and Scorecard work well as interactive online quizzes (ScoreApp is excellent for B2B). The mini-guide is ideal as a LinkedIn article or downloadable PDF. The cheat sheet works as a physical handout at networking events. The action plan works as a PDF workbook delivered after a webinar.
- 3. Set Up Your Funnel:** Landing page with compelling headline targeting business owners. Email capture with automated delivery. 5-email nurture sequence: deliver value, share case study, address objections, invite to strategy session. Retarget website visitors with ads promoting a different template.
- 4. Drive B2B Traffic:** LinkedIn is your primary platform -- publish the mini-guide as a LinkedIn article and promote the quiz. Speak at local business networking events and hand out the cheat sheet. Partner with accountants, solicitors,

and other professional service providers who serve the same audience. Run LinkedIn ads targeting business owners by company size and industry.

5. **Qualify and Convert:** Use the assessment and scorecard responses to pre-qualify leads before strategy sessions. Business owners scoring low are more likely to convert. Tailor your strategy session to their specific weak areas identified by the templates. Frame your coaching as the bridge between their current score and their target score.
6. **Scale Your Approach:** Create content around each template (LinkedIn posts, video breakdowns, podcast episodes). Build a webinar around the mini-guide content. Use scorecard data to write case studies showing client improvement. Referral programme: clients who refer other business owners get a bonus session.

PRO TIPS FOR BUSINESS COACHES:

- The Business Health Check is your highest-converting template because it creates urgency and specificity.
- Use the cheat sheet at live events -- it is a physical reminder that keeps your name in front of prospects.
- Business owners respond to ROI language. Always frame your coaching in terms of revenue gained or time freed.
- LinkedIn is 10x more effective than Instagram for reaching business owners. Focus your efforts there.
- Price your strategy session as complimentary, not free -- language matters with business owners.
